PROJECTS

Automotive Shop CRM — Python · Flask · HTML/CSS/JS

- Designed and built a full-stack CRM for a small automotive repair shop from the ground up
- Implemented customer records, vehicle service history, and appointment scheduling
- Flask backend with a clean HTML/CSS/JS frontend usable by non-technical staff
- Translated real-world business requirements into a functional production-ready web app

COMPETITIONS & ACTIVITIES

FBLA – Network Infrastructure | Future Business Leaders of America

June 2026

- Competing at the national level in Network Infrastructure, covering routing, switching, and enterprise network design
- Applying knowledge of TCP/IP, network topology, subnetting, and infrastructure security

FBLA – Cybersecurity | Future Business Leaders of America

June 2025

- Advanced to the national level competing in Cybersecurity concepts and best practices
- Demonstrated skills in threat analysis, vulnerability assessment, and information security principles

WORK EXPERIENCE

Ticket Sales & Customer Service | Ozarks Amphitheater

Camdenton, MO | May 2024 – Sep 2024

- Processed high-volume cash and card transactions accurately across concurrent events
- De-escalated disputes over invalid online tickets, resolving issues calmly under pressure
- Built repeat customer relationships. Regulars sought me out specifically to purchase from
- Assisted teammates with ticket scanning and crowd direction during peak periods

Busser | The Fish and Co.

Camdenton, MO | May 2023 – Aug 2023

- Maintained efficient table turnover during high-traffic service periods
- Developed composure and teamwork skills working under pressure in a fast-paced environment
